Dear Colleague,

**Re: TPMT/NUDT15 variant analysis for patients with ALL**

We are contacting you as a current/future user of the TPMT/NUDT15 variant analysis service at Synnovis's Purine Research Laboratory, St Thomas' Hospital.

Due to the recent commissioning of TPMT/NUDT15 testing for patients with ALL by NHS England, we would appreciate that users requesting this service include under **clinical details, ALL or acute lymphoblastic leukaemia**. This will enable us to differentiate from requests that are not part of the commissioned service.

If you require any further information, please do not hesitate to contact the Purine Research Laboratory.

Yours sincerely,

Dr. Monica Arenas Hernandez (PhD)  
Principal Clinical Scientist  
Purine Research Laboratory
