

Department of Reference Biochemistry
King's College Hospital
Denmark Hill
London SE5 9RS

17th November 2022

To Whom It May Concern:

I am writing to inform you of a delay to our plasma **Adrenocorticotrophic hormone (ACTH)** service in the Reference Biochemistry Laboratories at King's College Hospital (part of Synnovis LLP).

This delay is due to a reagent supply issue encountered by the manufacturer of the ACTH reagent kit that we use (Siemens Healthineers). Our vendor has provided an estimation of kit delivery at the end of the week beginning 21st November 2022.

We apologise for any delay to the provision of ACTH results and will provide you with an update to this situation by Friday 25th November.

Please contact the Immunochemistry Laboratory at King's College Hospital (tel. 020 3299 4130) for further information if required or Dr Colin Stone (Service Delivery Manager – tel. 020 3299 4107).

Yours sincerely,

Dr Royce Vincent
Consultant Chemical Pathologist
Department of Clinical Biochemistry
King's College Hospital
